DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32, drawn to methods of generation of Callus, etc employing compound of claim 1.
- II. Claims 33-39, drawn to process of regenerating plants.
- III. Claims 40-52, drawn to composition according to claim 40.
- IV. Claims 53-55, drawn to compound of claim 53.
- V. Claims 56-59, drawn to compound of claim 56.
- VI. Claim 60, drawn to method of regenerating Callus employing compound of claim 60.

Groups IV-V differ one from the other in that the groups are drawn to different scopes and extents so much so that a reference that would anticipate but one of the groups would not even render the other obvious. Group III may be rejoined with groups IV or V depending on which scope said group is drawn to.

Group I, II and VI differ from group IV-V and vice versa in that materially different product such as those in group IV or V may achieve regeneration of Callus.

Additionally, these groups require separate search consideration and databases and the searches for each of the groups is not co-extensive, and the search would impose a serious burden on the office if left unrestricted.

Art Unit: 1626

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Sally Sullivan on September 19, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
